

Electronics

Switch with IEC Connector Compact Size

C Series

UL Recognized CSA Certified VDE Approved

C Series

Two function power entry module combining a DPST switch and an IEC 320 power line connector. Compact packaging allows a smaller panel cutout with choice of snap-in or flange mounting. Available with general purpose filtering (F models - CFS, CFE), medical application filtering (H models - CHS, CHE) or unfiltered (CS, CE). Terminals allow for easy connection to any wiring scheme. Preconnected terminals from line to switch are available (B Models - CBS, CBE) for reducing OEM wiring time.

The medical versions (H models) are designed specifically for health care applications. Their extremely low leakage current allows compliance with UL544 and UL2601 as well as CSA22.2 health care specifications for use with both patient and non-patient care equipment.

Specifications

Hipot rating (one minute):

line-to-ground 2250 VDC line-to-line 1450 VDC

Operating frequency: 50/60 Hz

Rated voltage: 250 VAC

Rated current: 1-10A @120 VAC

Operating voltages: 115/230 VAC

Switch: Double-insulated rated for 10,000 operations

at full load.

1-10A @250 VAC

Amp inrush capability. **Unfiltered Push-on Force:**18 lb/80 N

Filtered models only:

Maximum leakage current, each line-to-ground

Minimum insertion loss in dB:

Recommended Panel Cutout

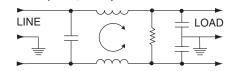

Panel Cutout for thickness of .031-.098 [.8-2.5]. Not recommended for plastic panels.

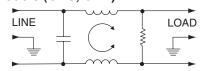

For snap-in applications, the D sides of the cutout must have a .02 [.508] radius on the installation side. Snapin models allow front mounting only.
